

Intermech Sustainability Policy

The Environmental Policy of Intermech Ltd

Intermech Ltd, engaged in the business of the design, manufacture, sell, install, commission and service of CNG refueling station equipment, is committed to protect our environment and achieve sustainable development through a well-structured environment management system (EMS) and top management involvement in all the spheres of our activities, products or services throughout the product lifecycle.

We therefore shall strive to:

- Achieve optimal utilization and conservation of resources through effective usage, recycling and re-use practices.
- Comply with the letter and spirit of environmental laws and regulations.
- Employ management systems and procedures specifically designed to prevent activities/or conditions that pose threat to human health, safety or the environment.
- Provide appropriate environmental training and educate employees to be environmentally responsible.
- Continuously seek opportunities to improve our adherence to these objectives.

We shall implement the above policy by setting and reviewing appropriate objectives and targets.

All the employees have been made aware of our Environmental Policy through a training session. The policy has been displayed at prominent locations within the plant.

The Environmental Policy has been framed such that it:

- is appropriate to the nature, scale and environmental impacts of its activities, products or services;
- includes a commitment to continual improvement and prevention of pollution;
- includes a commitment to comply with relevant environmental legislation and regulations, and with other requirements to which the organization subscribes;
- provides the framework for setting and reviewing environmental objectives and targets;
- is documented, implemented and maintained and communicated to all employees;
- is available to the interested parties.

Mr. Rajeev Dadhe
General Manager

Revision: 1.0

Date: 24.05.2009.
